About us

Primagran is a Polish family company founded in 2010

We are a manufacturer and distributor of high quality granite sinks and kitchen accessories. Our priority is to constantly improve the quality of our products and the customer service process. For years, we have enjoyed the trust of customers and business partners throughout Europe.

At Primagran, we are successfully developing our own e-commerce sales channels. We are looking to selectively expand our business into retail, specialist channels – such as kitchen studios and other B2B sectors. Additionally, we aim to cooperate with an architects, designers, installers, and other key partners from the market. With this in mind, we invite you to explore our PrimaPRO partnership programme and B2B offering.

Primagran innovations

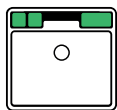

POCKET System

Innovative organizer – you can place the board, sponge or washcloth and dishwashing liquid in a convenient pocket of the bowl, keeping order around the sink. A specially designed drainage and overflow system will drain water and maintain hygiene in the work and storage areas.

LOW CUT System

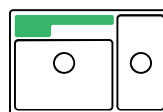

A special shelf located below the upper Edge of the sink, designed for comfortable and hygienic work in the kitchen. It is perfect for storing a sponge, washcloth, dishwashing liquid or cutting board – water from accessories placed on the shelf flows into the bowl and not onto the countertop, so it remains clean and dry.

Multispace system

The Multispace system provides extra sink space for conveniently drying kitchen utensils. Special drainage containers allow for the storage of cutlery, kitchen tools, herbs, and other small items.

The Pocket organizer holds a sponge and dish soap, while a dedicated slot keeps the cutting board neatly stored, ensuring a tidy and organized kitchen space.

Work&Store system

Work&Store system is a complete workstation that combines cooking convenience and smart storage.

The Work function allows rinsing, drying, and chopping on two levels with dedicated accessories. The Store function keeps dishes and accessories neatly stored in the smaller bowl. The Pocket organizer further enhances workspace organization.

TOP System

A specially designed edge allows stable placement of a roll-up drainer, drip insert or cutting boards, thanks to which you can transform the sink into a multifunctional workstation and conveniently wash, dry and cut on it.

LEVEL System

A specially designed edge, located inside the chamber provides additional working space. Placing a roll-up drainer or a drip insert on Level system allows you conveniently wash fruits, vegetables or dishes without splashing water outside the sink chamber as well as dry the washed one.

MULTILEVEL System

Combining two systems to one very effective system which enables to work on many levels turning the sink into a multifunctional workstation. You can stably place a roll-up drainer or a drip insert to conveniently wash and dry fruit, vegetables or dishes but also you can locate cutting board that perfectly fits to the sink, making the system more functional.

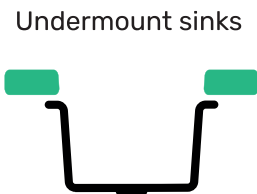

STEP System

Built in internal drainer as an absolute innovation that allows to discreetly dry dishes or accessories without exposing them on the countertop. Thanks to the fact that the dehumidifier is located inside the bowl, you can also use its surface as working space for the sink, so even large kitchen accessories like baking tray can be easily washed.

Advantages of our products

Features of Primagran granite sinks:

Antibacterial
Formula

Heat resistance

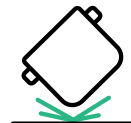

Thermal shock
resistance

Scratch resist-
ance

Dirt resistance

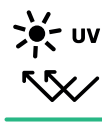

Impact resistance

Resistance to
discoloration

Easy to clean

Does not lose
its colour

Quality

Our sinks meet the highest quality standards: Declaration of compliance with the Polish and European standard PN-EN 13310+A1, Hygienic Certificate from the National Institute of Public Health.

Antibacterial Protection

Primagran sinks are available with an antibacterial option. By implementing highly effective technology based on active silver ions, the risk of bacterial and microorganism growth has been eliminated. The effectiveness of antibacterial protection is confirmed by research results conducted at a prestigious and modern research center in Toronto, in accordance with international standards: AATCC, ASTM, ISO, and JIS.

We are confident in the quality of our products, which is why we proudly offer a **35-year warranty** on our sinks.

Granite sinks

New York Multispace

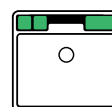

The New York Multispace sink is designed for those who love cooking and value smart kitchen organization. Featuring a spacious bowl and thoughtfully designed organizers, this model makes meal preparation easier and more efficient. The Multispace system is divided into two functional zones:

Left side – includes space for two integrated organizers (included), perfect for draining cutlery, utensils, fresh herbs or small kitchen accessories.

Right side – a dedicated area for dish soap and sponges, keeping your countertop tidy.

Key Features:

- ✓ **Personalized organization** – the Multispace system provides a dedicated draining area with removable organizers for cutlery, utensils, herbs, or small kitchen items, while the side pocket holds sponges and dish soap
- ✓ **Efficient two-level workspace** – Top & Level system creates a dual-level workstation, allowing you to use a cutting board, roll-up drainer, or drip tray to simplify food preparation
- ✓ **Spacious bowls** – comfortable use even with a large number of dishes
- ✓ **Fits cabinets from 60 cm** – a perfect choice for larger kitchen spaces

**Multispace – a multifunctional workstation.
Customize it to your needs and use it your way.**

- 1** Space for two dedicated containers to hold any kitchen utensils, enhancing kitchen efficiency
- 2** Vertical storage pocket for a cutting board, allowing easy drying
- 3** Organizer for a sponge and space for two bottles, such as dish soap, hand soap, or lotion
- 4** TOP system enables placement of a cutting board aligned with the sink edge
- 5** LEVEL system supports a drip tray or roll-up drainer, which can slide freely across the sink

Paris Work&Store Series

The Paris Work&Store sink is designed to enhance efficiency in food preparation while also providing smart storage solutions for essential kitchen accessories and dishes.

Key Features:

- ✓ **Two-in-One Functionality** – designed for both food preparation and storage, creating the perfect workstation for cooking enthusiasts
- ✓ **Enhanced WORK mode** – with dedicated accessories (cutting board, drip tray, roll-up drainer), you can rinse, dry and chop ingredients effortlessly across two levels
- ✓ **STORE mode** – hide accessories and dishes in the smaller compartment using a board that is perfectly aligned with the rim of the sink, keeping essentials discreetly within reach.
- ✓ **Built-in organizer** – features dedicated storage for a sponge, dish soap, and a special slot for a cutting board, keeping your sink area tidy
- ✓ **Spacious dual compartments** – 477 x 400 mm main bowl fits even baking trays, while the secondary compartment easily accommodates non-standard or elongated items

Innovative Workstation Work&Store For those who love to cook

- 1 Organizer for a sponge and space for 2 bottles—such as dish soap, hand soap, or hand lotion
- 2 Vertical storage pocket for a cutting board, allowing easy drying
- 3 Top level in the left bowl allows placement of the dedicated cutting board
- 4 Level position in the left bowl accommodates the drip tray or roll-up drainer—perfectly positioned under the cutting board
- 5 In the right bowl, the lower level can hold the drip tray or roll-up drainer
- 6 Top level in the right bowl holds a cutting board flush with the sink

Work – Easily prepare your favorite dishes with accessories like a cutting board, drip tray and roll-up drainer positioned above the main chamber.

Store – to keep all necessary accessories or dishes discreetly hidden, covered with a board that fits perfectly flush along the sink edges.

Oslo Pocket Series

The Oslo Pocket series features innovative sinks with a functional organizer on the sink shelf, designed to keep your kitchen tidy and simplify daily tasks. Thanks to the Multilevel System, the sink transforms into a versatile workstation, allowing convenient use of accessories on multiple levels. With a sleek design, concealed overflow, and various sizes, Oslo Pocket is the perfect solution for any kitchen.

Key Features:

- ✓ **Innovative organizer** – a convenient pocket for a cutting board, sponge, dishwashing liquids, or scrubbers
- ✓ **Multilevel System** – transforms the sink into a multifunctional workstation
- ✓ **Spacious bowls** – comfortable use even with a large number of dishes
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories

Practical and Functional

- 1 Organizer for a sponge and space for two bottles, such as dish soap, hand soap or lotion
- 2 Vertical storage pocket for a cutting board, allowing easy drying
- 3 TOP system enables placement of a cutting board aligned with the sink edge
- 4 LEVEL system supports a drip tray or roll-up drainer, which can slide freely across the sink
- 5 XL size of bowl due to an extended width (front-to-back) to 530mm

Oslo Step

The Oslo Step series features sinks with MAX-size bowls, combining two advanced systems: Step and Multilevel, transforming the sink into a multifunctional workstation. The built-in Step drainer allows discreet drying of dishes and accessories without taking up counter space. The Multilevel System enables comfortable work at different levels, enhancing the sink's functionality.

Key Features:

- ✓ **MAX bowl** – the largest space for comfortably washing large dishes
- ✓ **Step System** – an internal drainer for convenient and discreet dish drying
- ✓ **Multilevel System** – transforms the sink into a multifunctional workstation
- ✓ **Modern design** – slim edges and a concealed overflow
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories
- ✓ **Available in various sizes** for cabinets from 60 cm to 80 cm

Functional and Discreet Workstation

- 1 Hidden space for a sponge and dish soap
- 2 Internal drainer for discreet drying of dishes
- 3 Large MAX bowl size due to an extended width (front-to-back) to 530mm
- 4 Workstation design enables efficient use of accessories such as a roll-up drainer, drip tray or cutting board

Oslo Max Level Series

The Oslo MAX Level series combines maximum capacity with modern solutions for your kitchen. Featuring the largest MAX bowl on the market and the Level system, it provides exceptional convenience and efficiency in everyday use. The two-level workspace allows for the use of a roll-up drainer, drip tray or cutting board, expanding the working area and improving kitchen organization.

Key Features:

- ✓ **MAX bowl** – the largest space for comfortably washing large dishes
- ✓ **Level System** – multi-level workspace for enhanced ergonomics
- ✓ **Hidden rectangular overflow** – emphasizes style and functionality
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories
- ✓ **Fits cabinets from 60 cm** – a perfect choice for larger kitchen spaces

Sydney Ergo Multilevel Series

The Sydney Ergo Multilevel series combines an ergonomic bowl layout with a multi-level workstation, ensuring maximum comfort and functionality. The Ergo System features a spacious XL bowl with drainer and a shelf for centrally positioned faucet, making kitchen tasks easier by allowing smooth movement of the accessories, such as a cutting board or roll-up drainer across the sink bowl and the drainer. The Multilevel System also enables the use of accessories on lower level optimizing the available workspace.

Key Features:

- ✓ **Ergo System** – wide bowl, centrally placed faucet and smooth movement of accessories across the sink width, including over the drainer
- ✓ **Multilevel System** – transforms the sink into a multifunctional workstation
- ✓ **XL Bowl** – accommodates large kitchenware, such as baking trays
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories

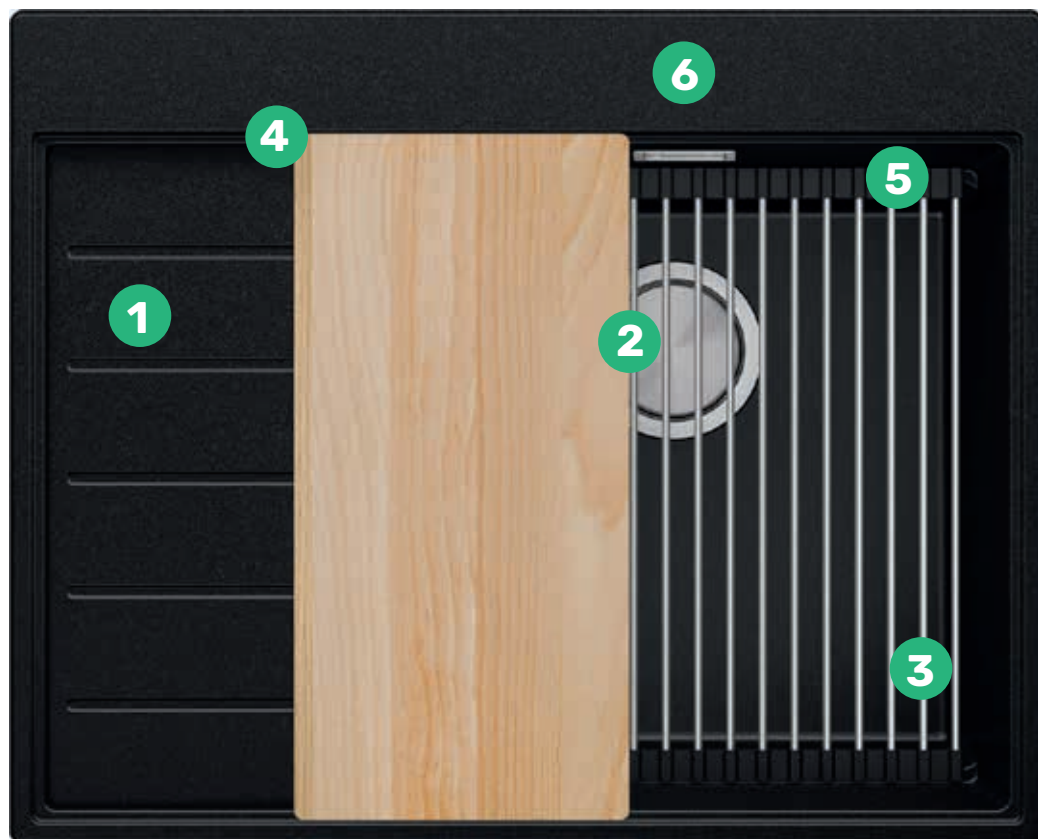

Available models with a drainer on the left or right side.

Ergo Multilevel Multifunctional Workstation

Ergonomics and Functionality

- 1 Lowered drainer allowing for easy placement of accessories
- 2 Workstation design enables efficient use of accessories such as a roll-up drainer, drip tray or cutting board
- 3 Spacious bowl for enhanced functionality
- 4 Top system allows for flexible positioning of a dedicated cutting board, flush with the sink edge
- 5 Level system supports a roll-up drainer or drip tray, allowing them to move freely from side to side
- 6 Shelf for the centrally positioned faucet for optimal usability

Sydney Ergo Pocket Multilevel Series

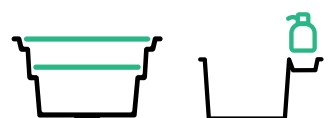

The Sydney Pocket Ergo Multilevel series combines an ergonomic design with an innovative storage system. The Ergo System features a spacious XL bowl and a centrally positioned faucet, making kitchen tasks easier and allowing smooth movement of accessories, such as a cutting board or roll-up drainer, both over the bowl and the drainer. The Pocket Plus System is a practical organizer designed for storing a cutting board, sponge or dish soap, along with a cutlery basket that facilitates drying small kitchen accessories.

Key Features:

- ✓ **Ergo System** – wide bowl, centrally positioned faucet, and smooth movement of accessories
- ✓ **Pocket Plus** – functional storage pocket for accessories and a cutlery basket for kitchen tools
- ✓ **Multilevel System** – transforms the sink into a multifunctional workstation
- ✓ **XL Bowl** – accommodates large kitchenware, such as baking trays
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories

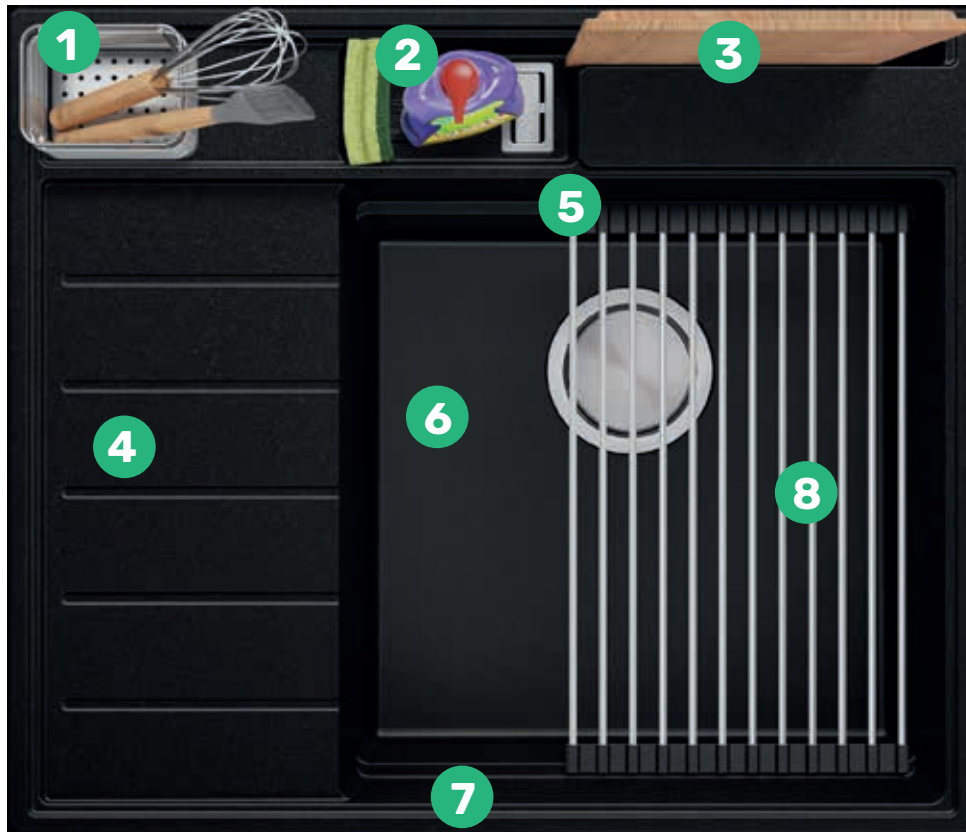

Available models with a drainer
on the left or right side.

Ergo Multilevel Multifunctional Workstation

Ergonomics and Functionality

- 1 A cutlery basket or other kitchen utensils holder
- 2 Organizer for a sponge and space for two bottles, such as dish soap, hand soap, or lotion
- 3 Vertical storage pocket for a cutting board, allowing easy drying
- 4 Lowered drainer allowing for easy placement of accessories
- 5 Workstation design enables efficient use of accessories such as a roll-up drainer, drip tray or cutting board
- 6 Spacious bowl for enhanced functionality
- 7 Top system allows flexible positioning of a dedicated cutting board, flush with the sink edge
- 8 Level system supports a roll-up drainer or drip tray, allowing them to move freely from side to side

Copenhagen Top Series

The Copenhagen Top series features elegant and practical sinks with a spacious XL bowl and a convenient draining board to help keep your kitchen tidy. Thanks to its reversible design, the drainer can be installed on either the left or right side, adapting to individual needs. The Top System allows for easy use of accessories, expanding the available workspace. With slim edges and a minimalist look, Copenhagen sinks blend seamlessly into every kitchen.

Key Features:

- ✓ **XL Bowl** – ample space for washing large dishes and baking trays
- ✓ **Reversible design** – allows for installation with the drainer on the left or right side
- ✓ **Top System** – additional workspace with compatible accessories
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories
- ✓ **Hidden rectangular overflow** – enhances elegant style and functionality
- ✓ **Available in various sizes** for cabinets from 40 cm to 60 cm

Milan Series

The Milan series combines modern design with practicality, offering a deep basin and a profilled drainer that makes dishwashing easier. The precisely designed grooves efficiently drain water, leaving your dishes dry and your kitchen clean. With sleek edges and a refined finish, this series adds character to every kitchen.

Key Features:

- ✓ **Spacious bowl** – ideal for large dishes and kitchen accessories, including baking trays
- ✓ **Profilled drainer** – ensures quick water drainage and efficient drying of dishes
- ✓ **Reversible design** – allows for installation with the drainer on the left or right side
- ✓ **Modern design** – ultra-thin edges around the bowl and drainer for a sleek look
- ✓ **Hidden round overflow** – enhances the sink's aesthetic and functionality
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories
- ✓ **Available in various sizes** for cabinets from 40 cm to 45 cm

Riga Series

The Riga series features sinks designed for small kitchens and kitchenettes, combining a minimalist style with maximum functionality. Despite their compact size, the wide and deep bowl ensure comfortable use. Clean lines and a modern design make these sinks a perfect fit for any interior, optimizing valuable counter space.

Key Features:

- ✓ **Compact design** – ideal for small kitchens and kitchenettes
- ✓ **Spacious XL bowl** – convenient washing of large dishes and baking trays
- ✓ **Modern, minimalist style** – sleek lines and slim edges
- ✓ **Concealed round overflow** – aesthetics and safety in one
- ✓ **Flexible installation** – pre-drilled holes allow various configurations for faucets and accessories
- ✓ **Available in various sizes** for cabinets from 30 cm to 80 cm

Madrid Twin Series

The Madrid Twin Series is a double-bowl sink designed for maximum space utilization in a modern and stylish form. The unique shape of the bowls provides additional space in each compartment, making it easier to wash large oval serving dishes, roasting pans and other elongated kitchenware.

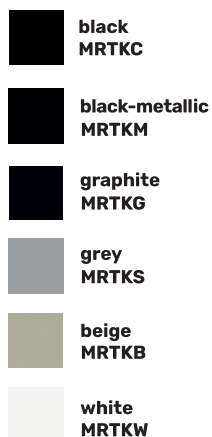

Key Features:

- ✓ **Two spacious XL bowls** – dimensions of 357 mm x 450 mm x 180 mm allow for convenient washing of large and oval dishes
- ✓ **Hidden rectangular overflow** – enhances the aesthetics and functionality of the sink
- ✓ **Fits cabinets from 80 cm** – a perfect choice for larger kitchen spaces

Pisa Top Series

The Pisa Top series combines modern aesthetics with practical solutions, making these sinks not just a functional element but also the focal point of any kitchen. The round shape adds a unique character to the interior, while the Top system allows stable placement of a cutting board, increasing functionality and workspace.

Key Features:

- ✓ **Round and spacious bowl** – a stylish shape that perfectly fits various kitchen designs
- ✓ **Top System** – enables the stable placement of a cutting board, creating additional workspace
- ✓ **Hidden round overflow** – an aesthetic and functional feature for enhanced safety
- ✓ **Faucet hole on the sink surface** – makes it easier to maintain cleanliness around the sink
- ✓ **Fits cabinets from 45 to 50 cm, including corner installations**

Praga Series

The Praga Series combines large XXL bowls with the innovative Level system, allowing for easy workflow organization, simplifying washing, draining and food preparation. Designed for both undermount and Slim top-mount installation, these sinks are a perfect fit for modern, minimalist kitchens.

Key Features:

- ✓ **XXL Bowl** – spacious and deep, perfect for washing large dishes and baking trays
- ✓ **Level System** – multi-level workspace for enhanced ergonomics
- ✓ **Minimalist design** – sleek edges and clean lines for modern interiors
- ✓ **Undermount sink** with optional top-mount (Slim) installation
- ✓ **Hidden rectangular overflow** – emphasizes style and functionality
- ✓ **Available for cabinets** from 40 cm to 90 cm

Praga Step Series

The Praga Step series combines spacious XXL bowl with two intelligent systems: Step and Level, maximizing ergonomics and workflow organization in the kitchen. The Step System features an integrated internal drainer, allowing discreet dish drying inside the bowl, eliminating countertop clutter. The Level System provides multi-level functionality, enabling the convenient use of a roll-up drainer, drying rack and cutting board.

Key Features:

- ✓ **XXL Bowls** – spacious and deep, perfect for washing large dishes and baking trays
- ✓ **Step System** – built-in internal drainer for discreet dish drying
- ✓ **Level System** – multi-level workspace for enhanced ergonomics
- ✓ **Minimalist design** – sleek edges and clean lines for modern interiors
- ✓ **Undermount sink** with optional top-mount (Slim) installation
- ✓ **Hidden rectangular overflow** – emphasizes style and functionality
- ✓ **Available for cabinets** from 60 cm to 80 cm

Functional and Discreet Workstation

- 1 Hidden space for a sponge and dish soap
- 2 Internal drainer for discreet drying of dishes
- 3 XXL bowl spacious and deep
- 4 Workstation design enables efficient use of accessories such as a roll-up drainer, drip tray, or cutting board

Bergen Low Cut Series

The Bergen Low Cut series is an innovative combination of large MAX bowl with the Low Cut system, providing convenience and order in the washing area. The lowered shelf for faucet installation and accessory storage keeps the entire wet zone below countertop level, helping maintain cleanliness and dryness in the kitchen. This is the perfect solution for those seeking a functional, modern and aesthetic sink.

Key Features:

- ✓ **Low Cut System** – A lowered shelf for accessories and faucet installation allows efficient water drainage directly into the bowl, keeping the countertop dry and clean
- ✓ **Multi-Level Efficiency** – Use of a roll-up drainer, drip tray or cutting board expands the working surface
- ✓ **Spacious MAX Bowl** – A 520 mm x 400 mm x 200 mm space ensures convenience for everyday use

Venice Series

The Venice series combines classic and elegant design with practical solutions, ensuring maximum comfort for everyday kitchen tasks. Spacious XL bowl provide plenty of room for washing dishes, while rounded R20 corners make cleaning effortless. Subtle yet versatile, these sinks blend seamlessly with both traditional and modern kitchens.

Key Features:

- ✓ **XL Bowl** – spacious and deep, perfect for washing large dishes and baking trays
- ✓ **Classic Design** – smooth R20 corners and slim edges for timeless elegance
- ✓ **Easy Cleaning** – rounded corners simplify dirt removal and maintain hygiene
- ✓ **Hidden Round Overflow** – enhances aesthetics and harmoniously integrates with the bowl's shape
- ✓ **Undermount sink** with optional top-mount (Slim) installation
- ✓ **Available for cabinets** from 40 cm to 60 cm

Valetta Series

The Valetta Series is designed in the spirit of minimalism, offering a timeless round bowl that adds elegance to any kitchen without compromising on everyday functionality. Its compact size makes these sinks a perfect fit even for the smallest spaces, ensuring convenience and ease of use.

Key Features:

- ✓ **Compact round bowl** – 420 mm diameter and 200 mm depth, ideal for everyday kitchen tasks
- ✓ **Classic and minimalist design** – a timeless round shape that complements any kitchen style
- ✓ **Hidden round overflow** – enhances the sink's design and classic character
- ✓ **Undermount sink** with optional top-mount (Slim) installation
- ✓ **Fits cabinets from 50 cm**, including corner installations
